DATE: August 18, 2008

To: Rob Haines – Region 6 Maintenance

Jeff Anderson

FROM: Jeff Anderson – Staff Bridge

SUBJECT: List of Box-Girders Needing Forms Removal

The following structures are box-girder bridges within Region 6 that still have the formwork within the cells. The formwork keeps bridge inspectors from being able to properly inspect the bridges, creating a potential safety hazard should a problem arise that can't be inspected:

E-16-JU: I-76 W.B. over Marshall Street at milepoint 0.774.
E-16-MO: I-25 over 44th Ave. at milepoint 213.408.
E-17-JK: HOV lane over I-25 S.B. at milepoint 216.96.
F-16-AS: I-70 E.B. over S.H. 6 at milepoint 260.974.
F-16-AT: I-70 W.B. over S.H. 6 at milepoint 260.975.
F-16-HH: I-70 E.B. over S.H. 40 at milepoint 261.574.
F-16-HI: I-70 W.B. over S.H. 40 at milepoint 261.575.
F-16-JU: S.H. 88 over BNSF RR at milepoint 8.900.
F-16-NK: Ramp to I-25 over the S. Platte R. at milepoint 209.155
F-16-NY: I-25 Ramp to Auraria Parkway at milepoint 210.645
F-16-OB: S.H. 40 Ramp to I-25/Auraria Parkway at milepoint 296.297.
F-16-OG: Ramp to I-25 N.B. over S.H. 6 at milepoint 209.191.

We are requesting that the formwork be removed within these box-girders. If you have any questions regarding the removal process, please contact Jamal Elkaissi at 303-757-9486. Thank you!

Cc: Roy Smith/Al Payne/Steve Pineiro – Region 6 Maintenance
Randy Jensen – Region Transportation Director
